“Without **strategy** execution is aimless.
Without **execution** strategy is useless.”

Morris Chang

ABOUT MOST

MOST Foundation is an NGO based in Warsaw founded in 2003. We believe technology and high-tech entrepreneurs have an important role to play in building open society in Poland, Europe and beyond.

In MOST Innovation Centre we help young, innovative companies grow and large companies re-invent. MOST IC is the strategic consultancy branch of the Foundation. We plough back profits into statutory activities of the Foundation.

We are consultants who know a lot about growth hacking and strategic management of innovation. We help our customers (fast-growing, high-tech SMEs) access the knowledge they need to accelerate. We help our customers define a growth strategy and act upon it. We rely on our network of top advisors: MOSTnet .

We proudly work with some of the most innovative companies in Poland.

THE POSITION

We are currently looking for an inquisitive, perceptive and imaginative individuals passionate about strategic management and innovation to become our:

INNOVATION STRATEGIST.

RESPONSIBILITIES

The selected candidate will be responsible for:

- Selecting, adapting and developing methodologies for business strategy building and implementation.
- Planning and leading consulting projects in the area of business innovation, strategy building and growth.
- Managing the collaborative process of preparing professional documents (project proposals, analyses, activity reports, project deliverables) involving customer, its partners and other team members.
- Designing, organizing and moderating workshops with customers focused on business strategy building, innovation and grow-related problem solving.
- Retrieving and selecting relevant information and identifying people with relevant competencies in a given domain or topic

- Identifying relevant stakeholders for the project, defining knowledge and competence gaps and select internal and external collaborators to bridge it.
- Structuring, planning and coordinating a consulting projects, including: setting a relevant goal, selecting/designing the methodology, carrying out the work in team, monitoring progress and evaluating the final outcome to leverage future improvements with lessons learnt along the way.
- Help our customers devise a workable activity plan and, if required, assist in the execution.
- Expand and accumulate knowledge on strategic management of fast-growing, innovative companies within the organisation. Create and experiment with new methodological approaches, frameworks and formats.
- Direct collaboration and communication with our customers, oftentimes directly with CEOs or CTOs of innovative high-tech companies or start-ups.
- (Co-)author articles, posts, infographics and other information content to be published in (social) media for the purpose of expert positioning and customer education and development.
- Support business development unit.

SOFT SKILLS

- You have Peter Druker's quotes on your toilet paper. 😊
- Now seriously, management science is what stirs you up.
- You know how to ask the right questions.
- Learning new things is fun for you.
- You believe in structure, process and hard work.
- You once wanted to build up your own company but you have realized that it is much more fun to help others build hundreds of them instead.
- You enjoy reading and writing about innovation, management and start-ups.
- You enjoy planning and moderating workshops.
- People tell you sometimes that you have good ideas.
- You have the mind and courage to bounce and defend big ideas but you cherish the moment when others take up on them and make it a reality. You do not bother staying in the shadow.
- You believe that fast execution is the key to success, you know how to organize your own work and the work of others.
- You get people's respect with your hard work, insight and out-of-the box thinking.

- You always deliver what you have promised.
- You are friendly.

HARD SKILLS & EXPERIENCE

- Spoken and written English proficiency
- Good command of office, editing, and team collaboration software
- Excellent language and visual communication skills
- Good copywriting skills
- Information retrieval know-how, ability to effectively search, select and prioritise information
- Background in technology or economics.
- Experience in consulting highly welcome.

WE OFFER

- Exciting projects with high-end technology companies
- Personal development opportunities
- Growing team with very flat hierarchy
- Great, creative team, friendly work environment
- Permanent, full-time cooperation after 3-months probation
- Satisfactory remuneration + performance bonuses
